

## Product Overview

**Figure 7**  
 1. Cutting height lever  
 2. Oil fill/dipstick  
 3. Rear deck handle  
 4. Blade control lever  
 5. Self-propelled drive lever  
 6. Fuel tank cap  
 7. Air filter  
 8. Mower  
 9. Spark plug

**Figure 8**  
 1. Cover  
 2. Side discharge chute  
 3. New discharge plug (optional)

## Operation

### Filling the Fuel Tank

**CAUTION** Gasoline is extremely flammable and explosive. A fire or explosion from gasoline can burn you and others.

- To prevent a static charge from igniting the gasoline, place the container and/or yourself directly on the ground before filling, not on a vehicle or an air object.
- Fill the tank outdoors when the engine is cold. Wipe up spills.
- Do not handle gasoline when smoking or around an open flame or sparks.
- Store gasoline in an approved fuel container, not at the reach of children.

Fill the fuel tank with fresh unleaded regular gasoline from a major name-brand service station (Figure 9).

**IMPORTANT:** To reduce starting problems in next seasons, add fuel stabilizer to the fuel all seasons, mixing it with gasoline less than 30 days old.

### Checking the Engine Oil Level

1. Remove the dipstick, wipe it clean, and fully install the dipstick (Figure 10).

**Figure 10**

2. Remove the dipstick and check the oil level (Figure 10). If the oil level is below the ADD mark on the dipstick, slowly pour oil into the oil fill tube to raise the oil level to the FILL mark on the dipstick. Use only **SAE 30** oil, type SAE 30V detergent oil with an API service classification of SF, S C, SF, S J, S L, or higher.

3. Install the dipstick.
